

*California Healthline*

TCP report, Fix Medi-Cal Dental Coverage, highlights that "children currently enrolled in Medi-Cal are not receiving needed dental care. According to the report, nearly half of beneficiaries under age 21 who are enrolled in Denti-Cal -- a Medi-Cal dental program -- did not receive a dental check-up or treatment in 2011. The report found that a major factor in the lack of dental care was that relatively few dentists accept Medi-Cal patients."
